

The Platform Company are leading providers of powered access equipment throughout the UK.

Over the last twelve months our business has undergone significant expansion and we are currently looking for two Mobile Engineers to work out of our busy Heathrow depot.

Reporting to the Senior Engineer, candidates will need to be able to work closely within a team orientated environment.

The successful candidates will be responsible for the maintenance and servicing of plant machinery and will be provided with the use of a company vehicle in order to perform their duties.

To succeed in this demanding role you will need to possess the following:

- *Clean driving licence;*
- *Enthusiasm - a self motivated approach to work;*
- *Excellent communication skills;*
- *Proven engineer's experience.*

Successful candidates will receive a competitive, industry benefits package.

Experience in the hire & sales industry preferred but not essential.

All industry specific training will be provided.

Please send a copy of your CV in strictest confidence to **Rosie Dougan Personnel Manager** at:

The Platform Company

Unit 22/23, Progress Business Park, Whittle Parkway, Slough. SL1 6DQ
